URGENT PRODUCT RECALL

Setton Pistachio of Terra Bella, Inc. today announced that it is expanding its voluntarily recall of pistachios to include all roasted shelled pistachios and roasted in shell pistachios from its 2008 crop due to potential contamination with the *Salmonella* organism. The Company is also recalling raw shelled pistachios from the 2008 crop that are not roasted prior to retail sale. (Raw shelled pistachios that are roasted prior to retail sale are not covered by this recall expansion).

Salmonella can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy persons infected with Salmonella often experience fever, diarrhea (which may be bloody), nausea, vomiting and abdominal pain. In rare circumstances, infection with Salmonella can result in the organism getting into the bloodstream and producing more severe illnesses such as arterial infections (i.e., infected aneurysms), endocarditis and arthritis.

This recall is being undertaken as a precautionary action, as there have been no confirmed cases of Salmonellosis in connection with these products.

Please examine your stocks immediately to determine if you have any of the affected products on hand. **Please promptly return the enclosed response form whether or not you have any affected products.** If you do have products, discontinue distributing them, return the response form and contact Anna Waters at (559) 535-6050 to make arrangements for the return or appropriate destruction of the affected products.
